ENGINEERED FOR PERFORMANCE. BUILT FOR GROWTH.

# FUTURA SERIES

## All-in-one, electronic key cutting machine

The Futura M400 delivers precision, versatility, and professional-grade performance in a compact, all-in-one key cutting solution. Designed to support both residential and automotive applications, it enables locksmiths and key professionals to expand service capabilities with efficiency and confidence. Connect to MYKEYS Pro for expanded functionality and database access.

### Futura M400

### Technical Data

**Power Supply:** Machine: 24V DC – 5.5 Amps – 130W  
Power Pack: 90–264V AC – 50/60Hz – 220W

**Cutter motor (flat cuts):** 24V DC

**Cutter Motor (dimple/laser Cuts):** 24V DC

**Prismatic Cutter (flat cuts):** U01W, WIDIA hard metal with coating

**Cutter (dimple cuts):** 01D, HSS super rapid steel

**Cutter (laser cuts):** 01LW, carbide, AlCrN coated

**Tool Speed:** Prismatic Cutter: 1,585 RPM  
Dimple/Laser Cutter: 12,100 RPM

**Movement:** 3-axis movement (with special bushings), driven by step motors on rectified roller guides

**Clamp (flat cuts):** 01V, removable, with four universal sides for holding flat, vehicle, and cruciform keys  
Clamp (dimple/laser Cuts): 01R, removable with interchangeable jaws (01J and 02J)

**Runs:** X Axis: 1.18 in (30 mm), Y Axis: 1.97 in (50 mm), Z Axis: 1.06 in (27 mm)

**Dimensions:** Width: 12.52 in (318 mm) Depth: 16.26 in (413 mm) Height (Display Open): 20.87 in (530 mm) Height (Display Closed): 14.37 in (365 mm)

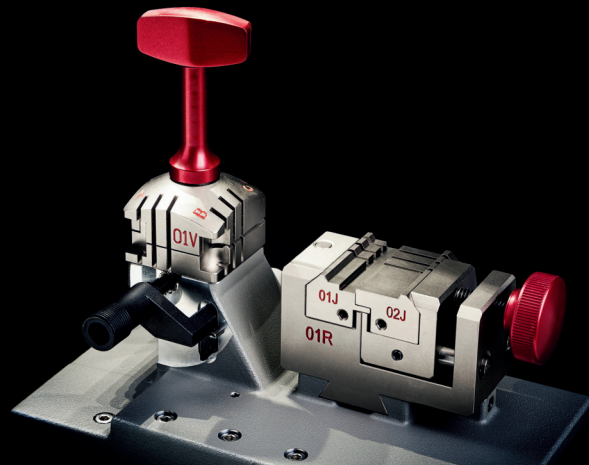

**Weight:** 44.1 lbs (20 kg)

### Main Features

The Futura M400 features a dual cutting station, allowing flat, cruciform, laser, and dimple keys – both residential and automotive – to be cut using a single machine.

A wide range of optional accessories further expands the machine's cutting capabilities, enabling nearly any residential or vehicle key on the market to be duplicated.

New with the Futura M400 is an integrated monitor that remains connected to the machine, a long-life WIDIA cutter, and an upgraded motor driver for significantly quieter operation.

### Additional Features

- Dual cutting station for maximum versatility
- Integrated industrial-grade monitor
- **Long-life WIDIA cutter**
- New motor driver for quieter operation
- **User-friendly software interface**
- Integrated residential and automotive databases
- **Automatic calibration**
- Optical decoding for flat keys
- Stable internet connectivity

### Cuts Wide Range of Keys

- Flat keys
- Cruciform keys
- Laser keys
- Dimple keys
- Residential keys
- Automotive keys

*Optional accessories available for expanded key compatibility.*

# FUTURA *M* SERIES

## Fast Start-Up

An illuminated on/off button powers on both the machine and display simultaneously for quick, efficient operation.

## Stable Connection

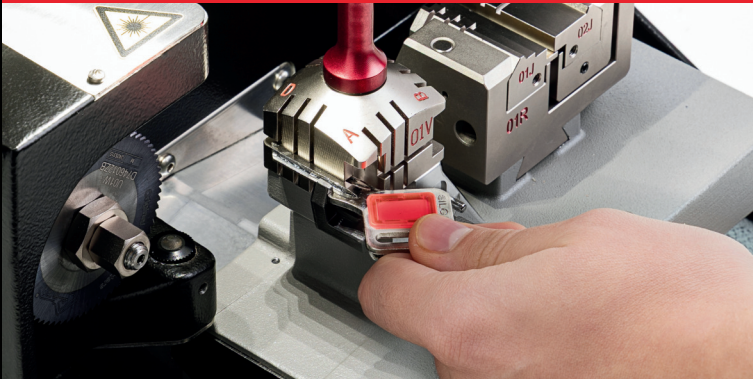

The machine and display share a single internet connection, ensuring uninterrupted key cutting performance.

## Quiet

Reduced noise levels thanks to a new motor driver, enhanced carriage control, and a reinforced rear housing.

## FLAT AND CRUCIFORM KEY CUTTING STATION

- Copy by code or duplicate by original
- Optical decoding
- Long-life WIDIA cutter
- Four-sided rotating clamp
- Gauge for precise key positioning

## LASER AND DIMPLE KEY CUTTING STATION

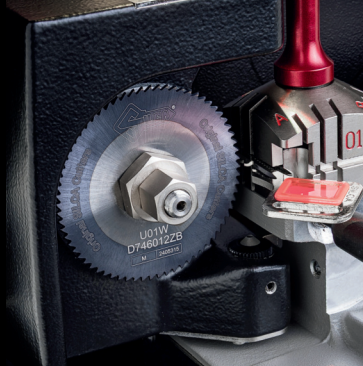

- Electrical contact decoding
- Pull-out tracer point
- Clamp with easy-to-install, interchangeable jaws
- Automatic calibration of decoder and cutting station with new clamp protection pin

## Easy Software

Proven, intuitive user interface with one-touch software updates via the internet.

## WIDIA Cutter (flat keys)

Made from coated hard metal for faster, more precise cutting and longer-lasting performance.

## Integrated Monitor

Industrial-grade 10-inch color touchscreen display, adjustable to provide the ideal viewing angle.
